SUMMARY

Data-focused B.Tech CS student (3rd Year) selected as Google Gemini Student Ambassador for expertise in AI, analytics, and structured problem-solving. Hands-on Python experience with a working knowledge of data analysis fundamentals, EDA, and business intelligence workflows. Actively building proficiency in Pandas, NumPy, and data visualisation.

TECHNICAL SKILLS

Languages: Python (OOP, data structures, logic) · C/C++ · HTML5 · CSS · SQL / MySQL (data querying & filtering)

Data & Analytics: Pandas (in progress) · NumPy (in progress) · Matplotlib (in progress) · Excel · EDA fundamentals · Data visualisation

Tools: VS Code · Basic Flask · Git

Core CS: Data Structures & Algorithms · Database Management · Operating Systems · OOP

EXPERIENCE

Gemini Student Ambassador

Aug 2025 – Dec 2025

Google (Student Ambassador Program)

Haryana, India

- Drove AI literacy for 100+ students by designing 3 workshops on Generative AI, Gemini, and prompt engineering — translating analytical concepts into practical, data-driven learning experiences.
- Sustained an 80-member tech community through structured session documentation and reporting records, mirroring BI and analytics project documentation workflows.

Python Developer Intern

Jul 2025 – Aug 2025

InternPe

Remote

- Delivered 4 end-to-end Python projects in 6 weeks by structuring data flows and validating outputs — demonstrating the data accuracy and independent ownership required for EDA assignments.
- Reduced logic errors to zero in a decision engine using structured state management and input validation — the same analytical approach applied in dataset cleaning and trend identification.

EDUCATION

B.Tech — Computer Science and Engineering

2023 – Present

Central University of Haryana

Haryana, India

- Coursework: Data Structures, Algorithms, DBMS, OOP — applied in projects covering data organisation, query optimisation, and system design.

Class 12th (ISC Board) — Science Stream

2020 – 2021

Sacred Heart Convent Higher Secondary School

Uttar Pradesh, India

- Main Subjects: Physics, Chemistry, Mathematics, Computer Science.

Open to Data Science Internship opportunities · Remote / India
